

- ▶ Fortified with the Pebble Edge Admixture
- ▶ Luxuriously Smooth and Resilient Texture
- ▶ Colorful Glass Accents available in some colors
- ▶ Lowest Lifecycle Cost Finish
- ▶ Never have to re-plaster, restore by re-polishing
- ▶ Applied by a Wet Edge Certified Installer

### Architectural Series

Tourmaline Basalt Lazurite Hematite

### Signature Series

Ivory Mist Evergreen Midnight Breeze Blue Pacific Coast

Caribbean Coast Riviera Coast Tahoe Coast Nightfall

### Treasure Series

The addition of color-coated glass in these three colors creates a prismatic dimension that sets it apart. The recycled glass is a truly "green" material and the color coating process has a worldwide patent. The glass creates a sparkle and star like appearance that no other material can match.

You can expect the color of the water to vary depending on a variety of influences such as the position of the sun, whether the day is sunny or overcast, the pool design, the landscaping around the pool and the pool depth. Water color is considered to be subjective and your watercolor will be unique to your pool and its surroundings. Product samples may vary from printed samples. Finish color and consistency may differ due to variations in natural materials, plastering techniques and pool water chemistry. Ask your contractor for a product sample. It is recommended that you view several pools when making a choice on a WetEdge pool finish. Some WetEdge Pool Finishes contain shell blend or moon dust which are crushed abalone and mother of pearl shells. Because of the unique composition of these shells they are not guaranteed from long-term breakdown of loss of color due to pool water chemistry.
